

Leetcode

Verify your leetcode profile

1. Click on the add profile button

The screenshot shows the Meritcurve platform's profile management interface. On the left, there's a sidebar with various account management options like Dashboard, Overall Report, Assessments, etc. The main area is titled 'Your External Profiles' with the sub-instruction 'Connect and showcase your professional profiles to stand out.' Below this is a placeholder icon for a profile and the message 'No profiles added yet'. At the top right of this section is a prominent blue button labeled '+ Add profile'. A red arrow from the previous step points directly at this button.

2. click on the leetcode option

This screenshot shows the 'Add profile' modal window that appears after clicking the '+ Add profile' button. The modal has a title 'Add profile' and a dropdown menu for selecting a website. The 'LeetCode' option is listed in the dropdown and is highlighted with a red box. A red arrow from the previous step points to this 'LeetCode' option.

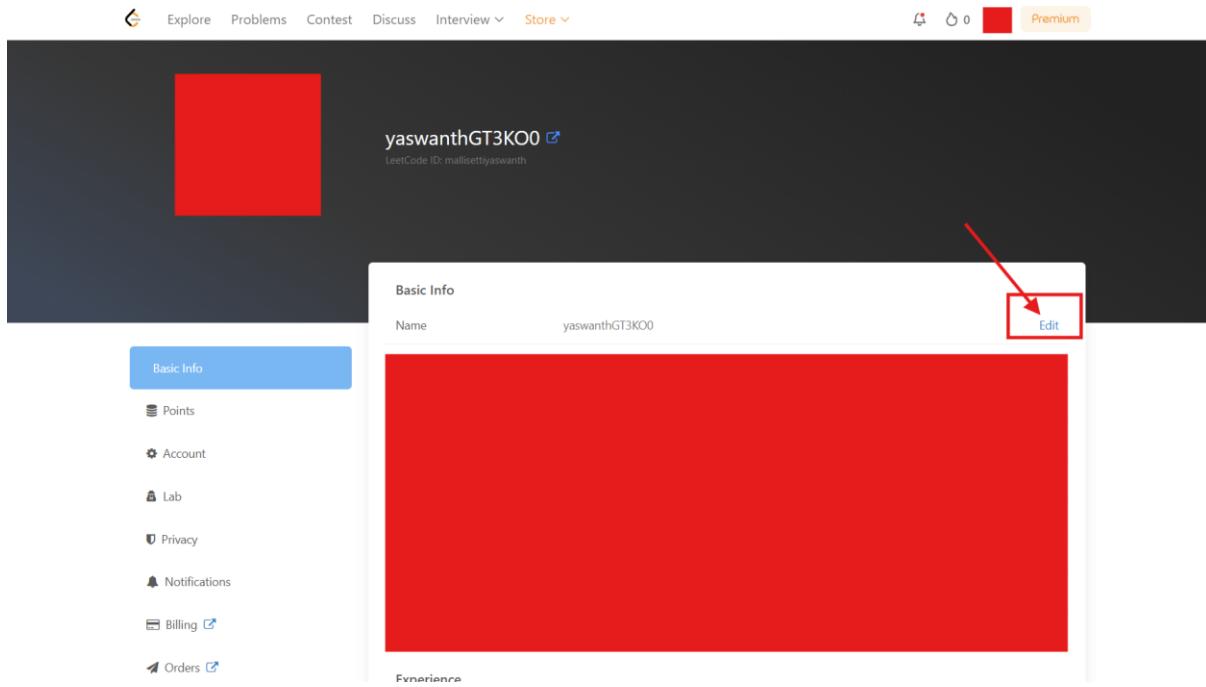

3. enter your leetcode profile username and click on the add profile button

The screenshot shows the MeritCurve dashboard with the 'External Profiles' section selected. A modal window titled 'Add profile' is open, prompting for a 'Website' (LeetCode) and a 'Your username' (mallisettyaswathi). A red arrow points from the 'Your username' input field to the 'Add Profile' button.

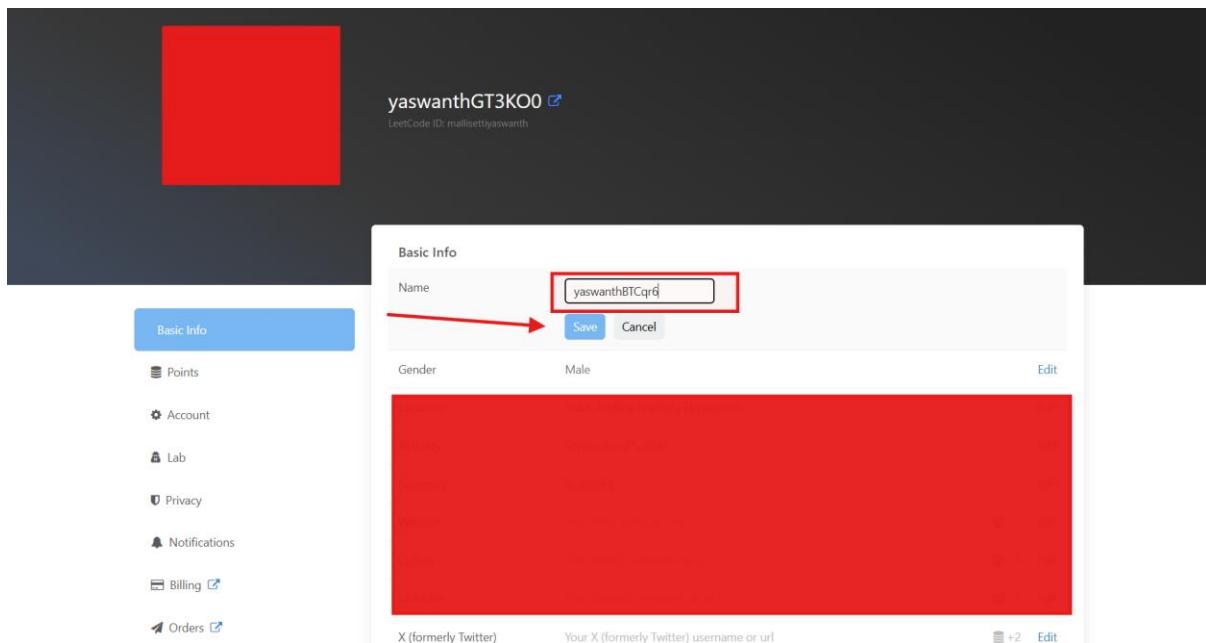

4. copy the code generated and click on the link above (make sure you logged In to leetcode platform)

The screenshot shows the MeritCurve dashboard with the 'External Profiles' section selected. A modal window titled 'Verify profile' provides instructions: Step 1: Go to your profile <https://leetcode.com/profile/>. Step 2: Add the following text to your "name" at last: BTCqr6. Step 3: Save your profile. Step 4: Return to this page and click "Verify". A red arrow points from the 'Copy' button next to the URL in Step 1 to the 'Verify' button at the bottom right of the modal.

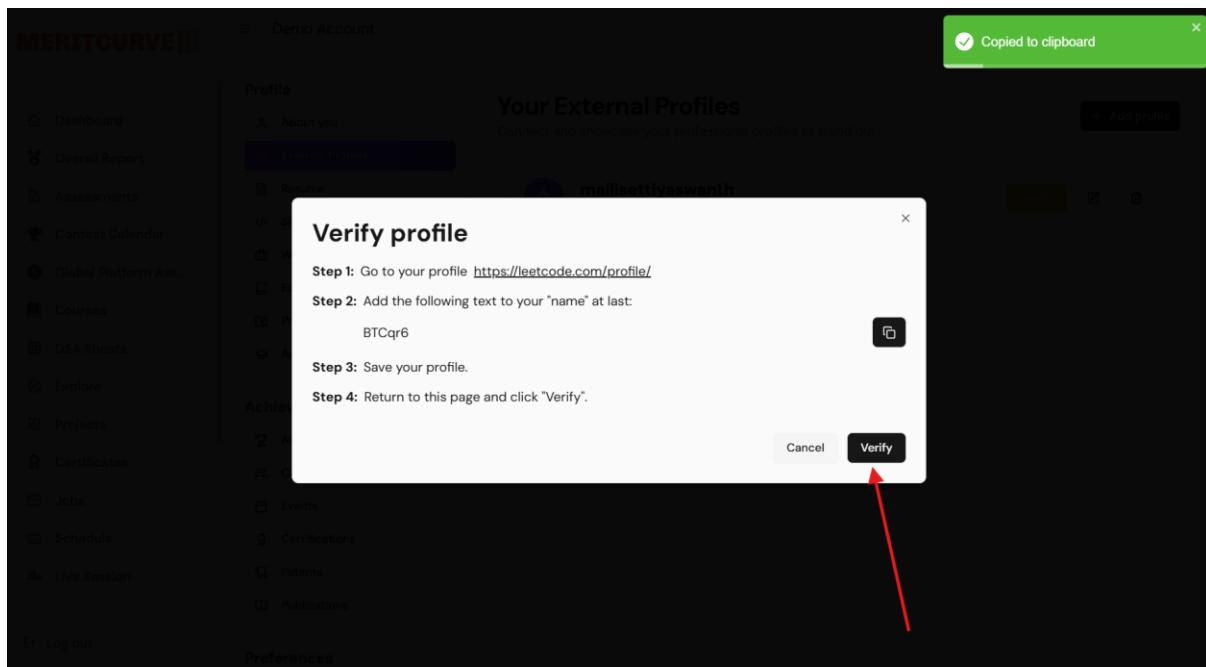

5. click on the edit button of the name

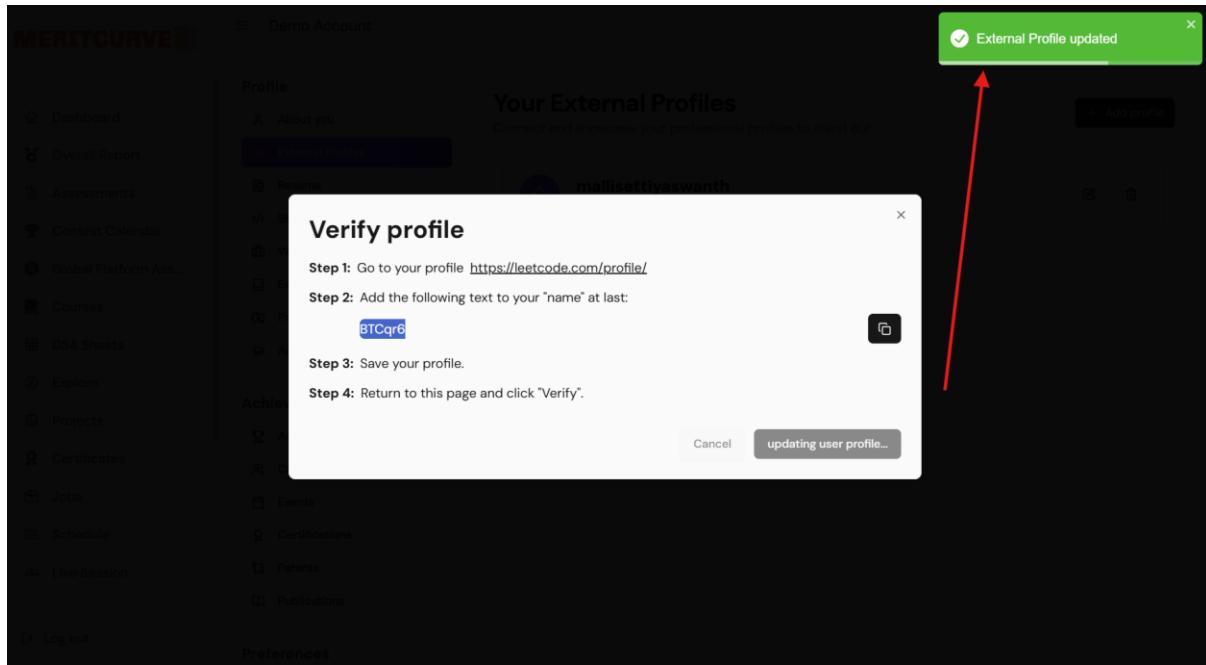

6. Then paste the code you have copied at the last of the name and then click on the save button

7. Then return back to the platform and click on the verify profile

8. You can see the profile is verified successfully and then you can see your profile is listed in the external profile section

+ Add profile

No profiles added yet

Tap the "Add Profile" button to start connecting your platforms like LeetCode, GitHub, HackerRank, and more.

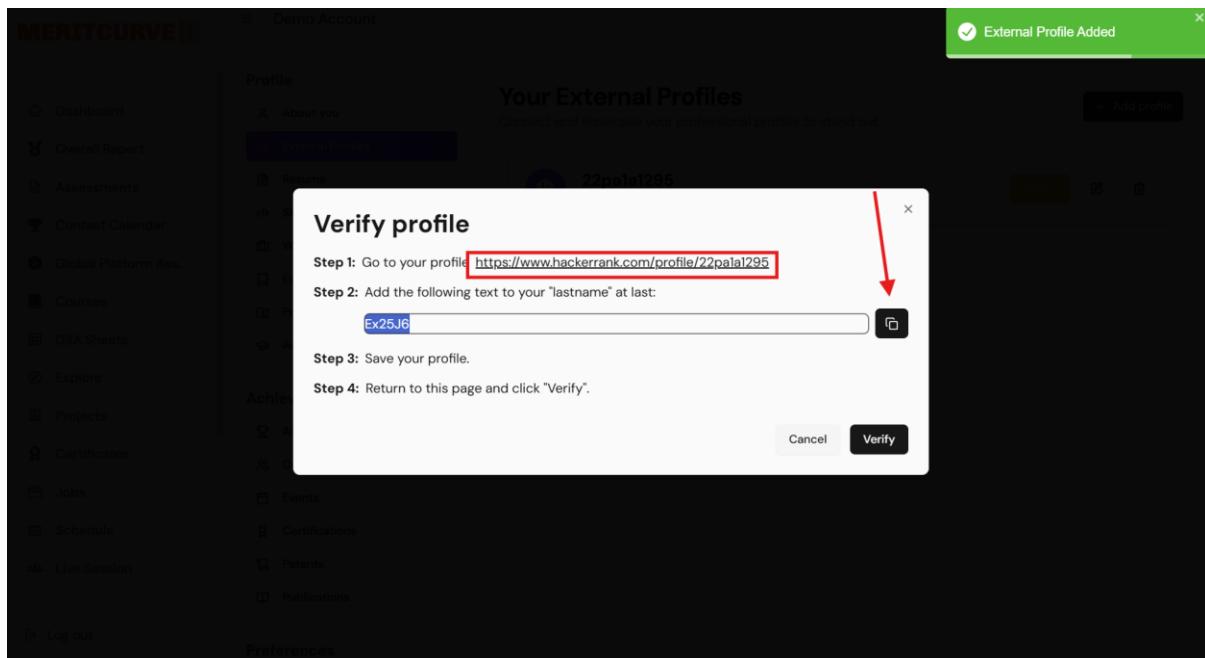

2. Select the Hacker rank option

The screenshot shows the MERITCURVE dashboard with a sidebar on the left containing various navigation options like Dashboard, Overall Report, Assessments, etc. The main area is titled 'Your External Profiles' with a sub-section 'Add profile'. A dropdown menu is open under 'Website' with 'Hacker Rank' selected. Other options listed include Hacker Earth, Codechef, LinkedIn, GitHub, LeetCode, GeeksForGeeks, and CodeForces.

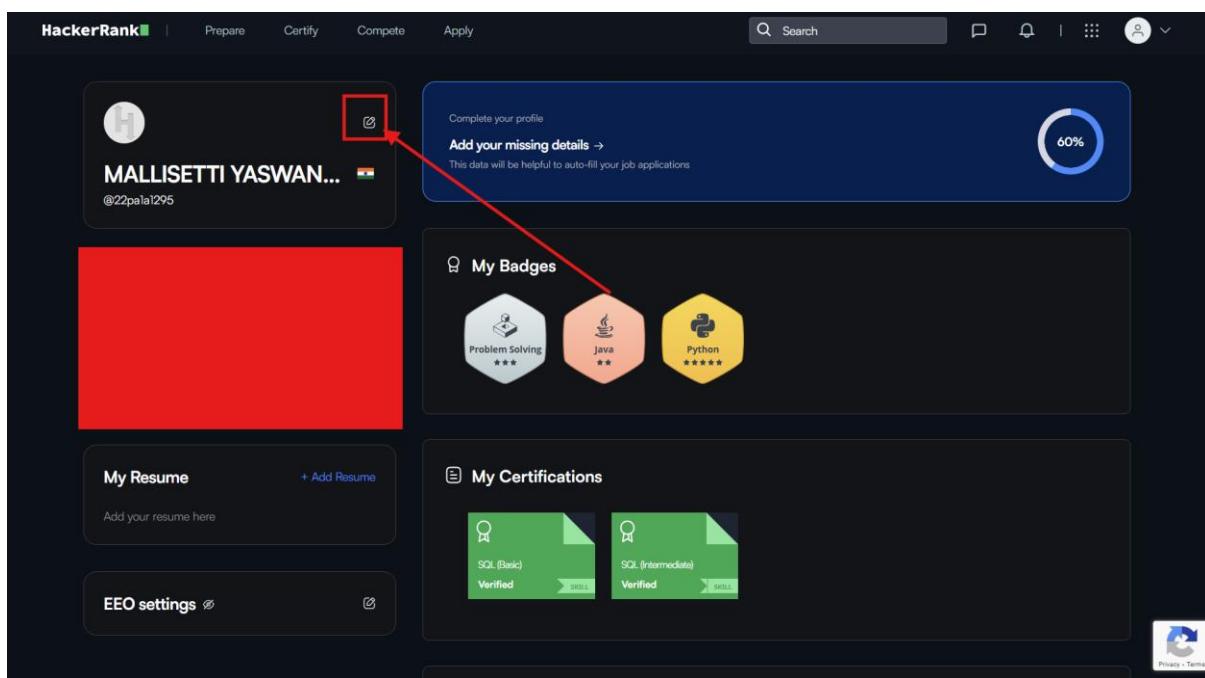

3. Enter your username and click on the Add Profile button.

The screenshot shows the same interface as above, but now the 'Your username' field contains '22pala1295'. Two red arrows point from the text 'Copy the code and click on the link above' to the 'Your username' input field and the 'Add Profile' button respectively.

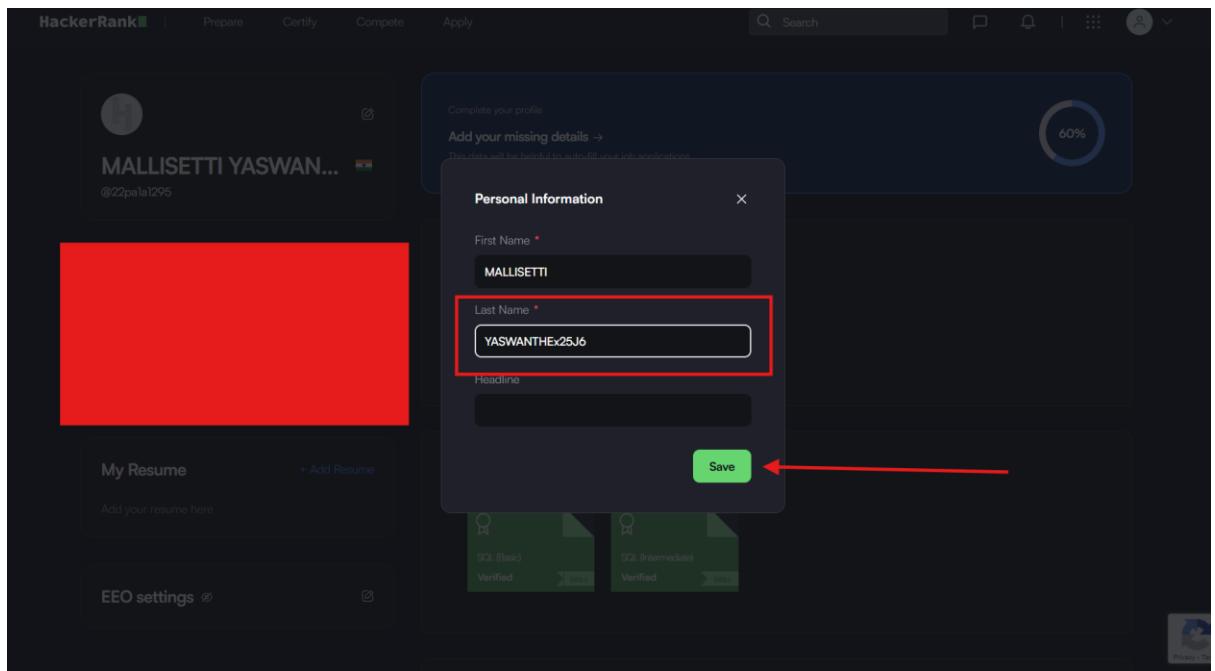

4. Copy the code and click on the link above

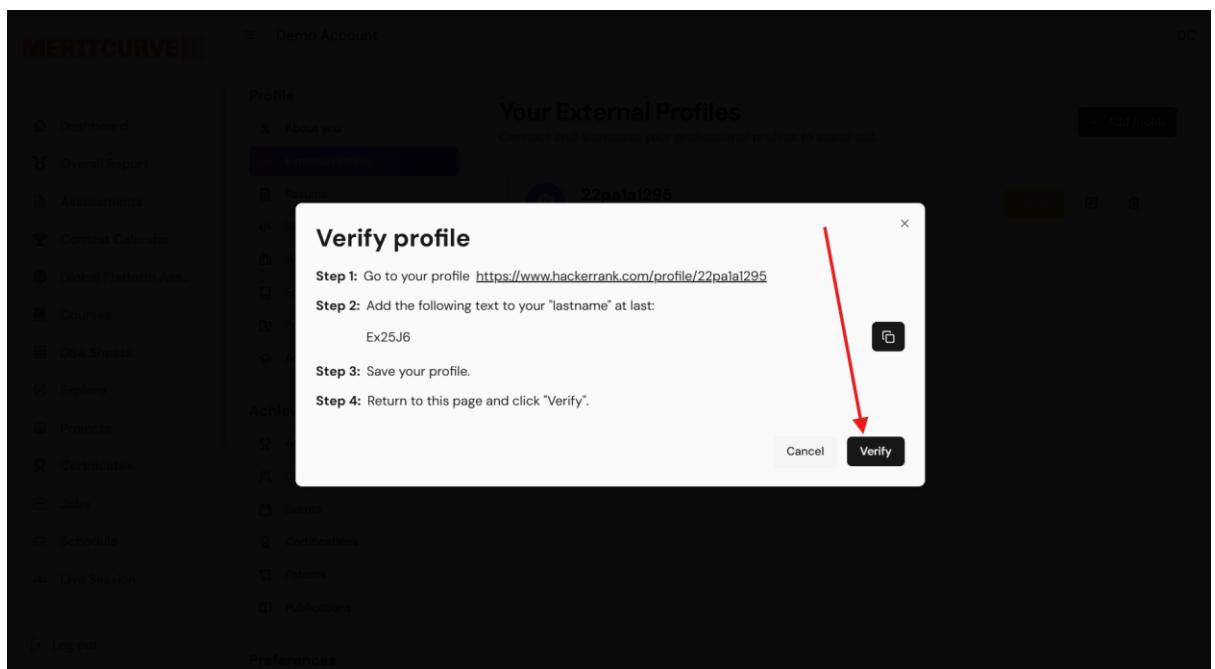

5. click on the edit button

6. paste the code in the lastname field at last and click on save button.

7. return to the platform and click on verify button

8. You can see your profile is successfully connected to our platform.

The screenshot shows the MeritCurve platform's user profile interface. On the left, there's a sidebar with various navigation options like Dashboard, Overall Report, Assessments, Contest Calendar, Global Platform Ass..., Courses, DSA Sheets, Explore, Projects, Certificates, Jobs, Schedule, and Live Session. Below that is a Log out link. The main content area is titled "Demo Account". Under "Profile", there are sections for "About you" and "External Profiles" (which is highlighted in blue). Other profile sections include Resume, Skills, Work, Education, Projects, and Academic Details. Under "Achievements", there are sections for Achievements, Competitions, Events, Certifications, Patents, and Publications. At the bottom is a "Preferences" section. On the right, a box titled "Your External Profiles" contains a purple circular icon with a white 'H' (representing HackerRank), the text "22pa1a1295", and "Hacker Rank". A red arrow points from the "Add profile" button at the top right of this box down towards the "Hacker Rank" entry. A green notification bar at the top right says "External Profile updated".

Geeks For Geeks

1. Click on the Add Profile button.

This screenshot shows the same MeritCurve profile page as the previous one, but with a different state. The "External Profiles" section now displays a large, light-purple placeholder icon of a smiling person's head. To the right of the icon, the text "No profiles added yet" is centered, with a sub-instruction below it: "Tap the 'Add Profile' button to start connecting your platforms like LeetCode, GitHub, HackerRank, and more." A red arrow points from the "Add profile" button at the top right of the "Your External Profiles" box down towards the placeholder icon. The rest of the interface remains the same, with the sidebar and other profile sections visible.

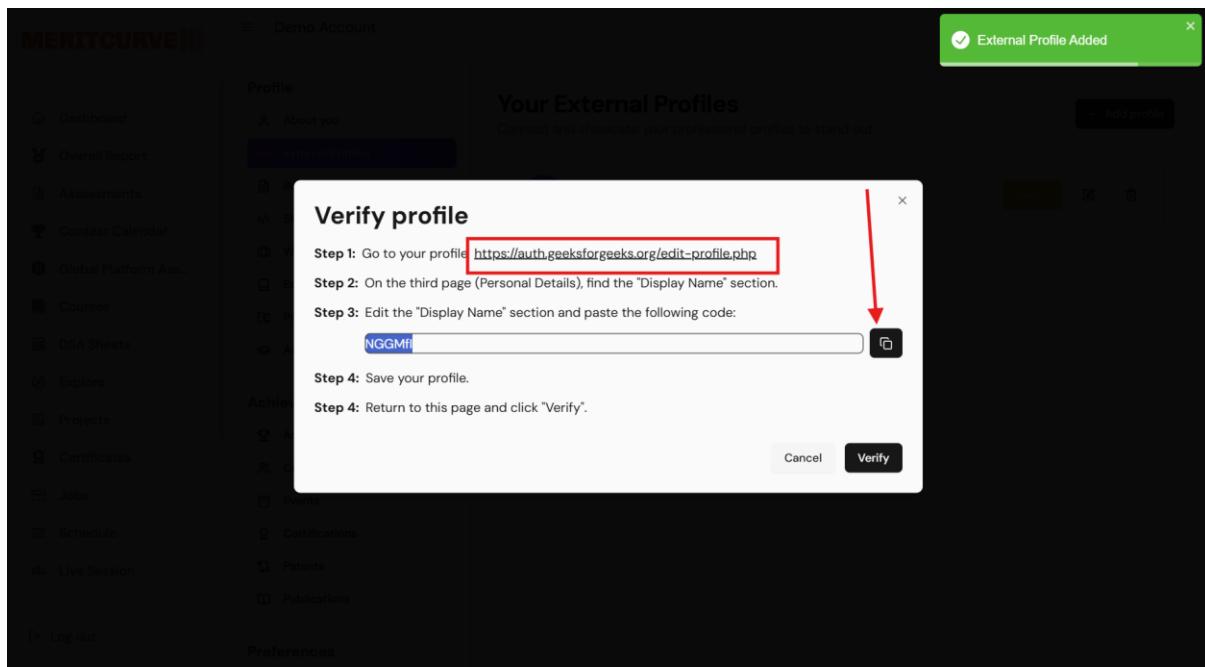

2. Select the geeksforgeeks option.

The screenshot shows the MERITCURVE dashboard for a 'Demo Account'. On the left, there's a sidebar with various navigation options like Dashboard, Overall Report, Assessments, Contest Calendar, Global Platform Ass., Courses, DSA Sheets, Explore, Projects, Certificates, Jobs, Schedule, Live Session, Log out, and Preferences. The main area is titled 'Your External Profiles' with the sub-instruction 'Connect and showcase your professional profiles to stand out.' A button '+ Add profile' is visible. A modal window titled 'Add profile' is open, specifically the 'Website' section. It lists several platforms: GeeksForGeeks (selected), Hacker Rank, Hacker Earth, Codechef, LinkedIn, GitHub, LeetCode, GeeksForGeeks (repeated), and CodeForces.

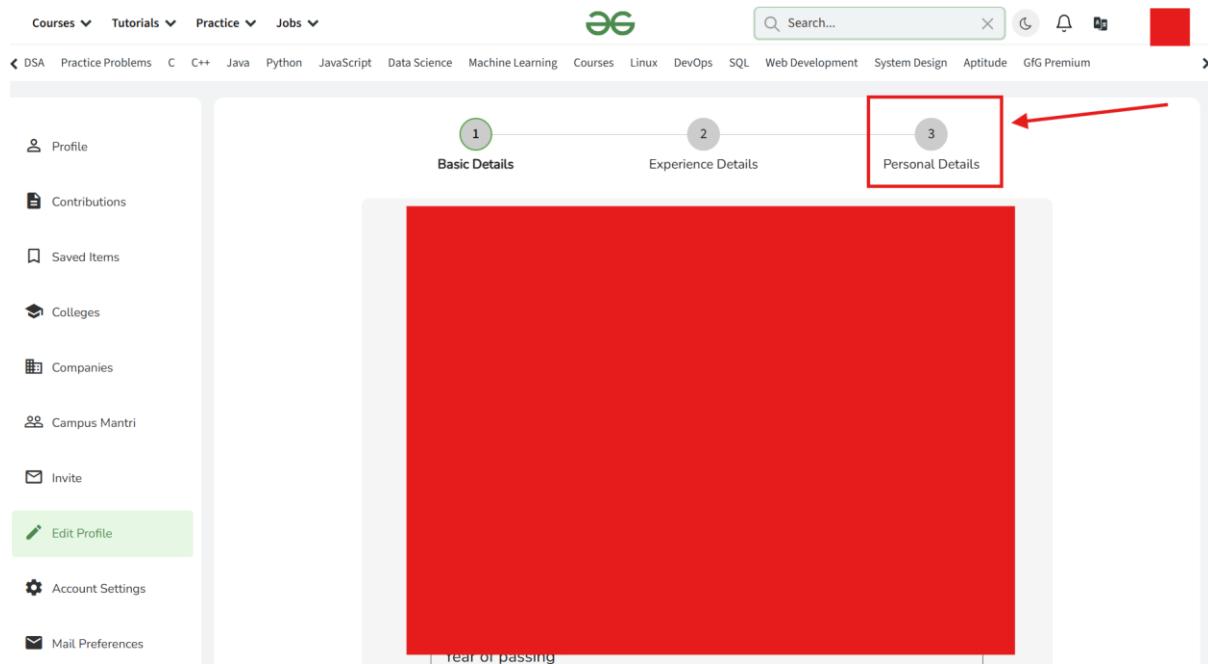

3. Enter your username and click on the Add Profile button.

This screenshot is similar to the previous one, showing the 'Add profile' modal. However, it includes a red box highlighting the 'Your username' input field, which contains the text 'yaswanthmalisetti'. A red arrow points from the bottom right towards the 'Add Profile' button, which is also highlighted with a red box.

4. Copy the code and click on the link above.

5. Click on the personal details section.

6. Paste the code in the display name field at last and click outside the field (It will update automatically when focus is shifted).

The screenshot shows the GeeksforGeeks profile editing interface. On the left, a sidebar lists options like Profile, Contributions, Saved Items, Colleges, Companies, Campus Mantri, Invite, Edit Profile (which is selected and highlighted in green), Account Settings, Mail Preferences, and Delete Account. The main area is titled 'Basic Details' and contains sections for 'Basic Info', 'Experience Details', and 'Personal Details'. In the 'Basic Info' section, there is a placeholder for a profile picture, a 'Display Name' input field containing 'yaswanthNGGMfi' (which is highlighted with a red box), and other fields for Contact Number, Technical Skills, and Gender (Male selected). Below this is an 'Upload Resume' section with a 'UPLOAD RESUME' button. The 'Personal Details' section includes fields for State ('Andhra Pradesh'), City ('Select City'), and Social Profiles (LinkedIn and GitHub links).

7. Return to the platform and click on the verify button.

The screenshot shows the MeritCurve dashboard. The left sidebar includes options like Dashboard, Overall Report, Assessments, Contest Calendar, Global Platform Averages, Courses, DSA Sheets, Explore, Projects, Certificates, Jobs, Schedule, Live Session, Log out, and Preferences. The main area is titled 'Your External Profiles' with a sub-section 'Verify profile'. A modal window displays four steps: 1. Go to your profile (<https://auth.geeksforgeeks.org/edit-profile.php>). 2. On the third page (Personal Details), find the "Display Name" section. 3. Edit the "Display Name" section and paste the following code: NGGMfi. 4. Save your profile. 5. Return to this page and click "Verify". A red arrow points from the text 'Return to this page and click "Verify"' down to the 'Verify' button in the modal. A green notification bar at the top right says 'Copied to clipboard'.

8. You can see your profile is listed

6. Return to the platform and click on the verify button.

A screenshot of a MeritCurve profile page. On the left is a sidebar with various navigation options like Dashboard, Overall Report, Assessments, etc. The main area shows a 'Your External Profiles' section with a purple header bar containing a 'Verify profile' button. A red arrow points from this button down to a modal window titled 'Verify profile'. The modal contains four steps: 1. Go to your profile <https://codeforces.com/settings/social>. 2. Add the following text to your "lastname" at last: pawb3l. 3. Save your profile. 4. Return to this page and click "Verify". At the bottom right of the modal are 'Cancel' and 'Verify' buttons, with the 'Verify' button highlighted by a red arrow.

7. You can see your profile is listed in the external profiles successfully.

A screenshot of the same MeritCurve profile page after the verification process. The 'External Profiles' section now lists a single entry: 'mallisettiyaswanth' associated with 'CodeForces', accompanied by its logo. A red arrow points from the 'External Profiles' section in the sidebar to this listing on the main page.

Code chef

1. Click on the Add Profile button.

The screenshot shows the Meritcurve platform's user interface. On the left is a sidebar with various navigation options like Dashboard, Overall Report, Assessments, etc. The main area is titled 'Your External Profiles' with the sub-instruction 'Connect and showcase your professional profiles to stand out.' Below this is a placeholder icon with the text 'No profiles added yet'. At the top right of this section is a black button labeled '+ Add profile'. A thick red arrow points directly at this button.

2. Select the code chef option from the dropdown.

This screenshot shows the same Meritcurve interface as above, but with a modal window overlaid. The modal is titled 'Add profile' and has a dropdown menu under 'Website' labeled 'Select...'. The options listed are Hacker Rank, Hacker Earth, and Codechef, with 'Codechef' highlighted by a red rectangle. Other options like LinkedIn, GitHub, LeetCode, GeeksForGeeks, and CodeForces are also visible in the list.

3. Enter your username and click on the Add Profile button.

4. Click on the edit icon at the top.

The screenshot shows the CodeChef profile page for user '9QpLQb'. The top navigation bar includes links for Courses, Practice, Compete, Compiler, and a 'Buy Now' button. The main profile section displays basic information: Username (yaswanth791504), Country (India), and Student/Professional status (Other). Below this is a 'Skill tests' section with a 'Build a strong profile by taking skill tests' message and a 'View skill tests' link. On the right, there's a 'Badges' section listing several challenges with no badges earned yet. A red arrow points from the bottom of the 'Skill tests' section towards the 'Edit Profile' button.

5. Paste the code copied at last in the Your name field and click on the save button

The screenshot shows the 'Edit Profile' page for user 'yaswanth791504'. The left sidebar lists categories: General, Personal, Professional, Login, Change Username, Notifications, and Privacy. The main form has a 'General Information' section. In this section, there's a file upload area for a profile picture, a checkbox for deleting the current profile picture, and a 'Your Name:' field. The 'Your Name:' field contains the value 'yaswanthhg1Sgg' and is highlighted with a red box. Below it is a 'Your Date of birth:' field containing '2004-09-21', a 'Gender:' section with 'Male' selected, and a 'Save' button.

6. Return to our platform and click on the verify button .

7. You can see your profile listed in the external profile section successfully.
